

# FLEA CALLER

## CORRIDOR 106 UPDATE

Paperwork for the proposed re-route of Corridor 106 was submitted to the Vermont Department of Forests, Parks and Recreation at the beginning of May. We have been advised that the local foresters have given their approval, and are now awaiting approval at the State level.

## HERE COMES THE GROOMER

Thanks to the efforts of Club member Clay Sides our Tucker is now equipped with a Collett Electronics's Groomer Warning Beacon. The device transmits a signal on the International Channel of Collett Communicator's Platinum 900 headset so that you are alerted when a groomer is working within a 1/2 mile radius of your location. If you're looking for a headset for your helmet, you might want to check out Collett's website. Their headsets come with 3 channel frequencies. Two of the channels allow access to standard frequencies and the third is programmable with several option choices. For ease in group riding, the company has assigned a frequency channel to most of the snowmobile clubs in New England. The Snow Fleas' frequency is 51234.

## CHESTER'S 250TH BIRTHDAY

As part of Chester's 250th birthday celebration the Chester Snowmobile Club is hosting a barbeque on Saturday, July 16th beginning at 11:30 a.m. at the Legion Field next to the Chester American Legion on Route 103 in Chester. They will also have a display of vintage snowmobiles and antique motorcycles on site. For more information on the display, contact Lee Whiting at [wingsongvineyard@gmail.com](mailto:wingsongvineyard@gmail.com).

We encourage our members to come out and support the Chester Club. Their members were big sup-

porters of our first annual Pig Roast last year.

## AMERICAN COUNCIL OF SNOWMOBILE ASSOCIATIONS

This group (ACSA) is committed to the advancement and continuation of snowmobiling. They monitor legislative and regulatory issues across the country that may have an impact on snowmobiling, and work with government entities to monitor and encourage policy and regulatory actions that provide equitable treatment of snowmobiling access, funding, and trail maintenance. Their website contains information on how they work at the national, state, and local levels, as well as information on each state's snowmobile trails. For more information on this group, check out their website at [www.snowmobilers.org](http://www.snowmobilers.org).
